

25. The host cell of Claim 21, wherein said host cell is further transformed with a reporter plasmid.

26. The host cell of Claim 25, wherein said reporter plasmid is the SRE-luciferase reporter plasmid.

27. A cell comprising an exogenously supplied nucleic acid which comprises a polynucleotide sequence that encodes SEQ ID NO:1 and SEQ ID NO:3, or progeny thereof.

28. The cell of Claim 27 in which the polynucleotide is selected from the group consisting of SEQ ID NO:2 and SEQ ID NO:4, or progeny thereof.

29. The cell of Claim 27 or 28 which is selected from the group consisting of a Jurkat leukemic T cell and a Tsup-1 human T lymphoblastoma cell, or progeny thereof.

30. The cell of Claim 27 or 28 which further comprises an exogenously supplied reporter nucleic acid, or progeny thereof.

31. The host cell of Claim 30 in which the reporter nucleic acid is an SRE-luciferase reporter plasmid.

Express support for the foregoing new claims may be found in the specification at *e.g.*, pages 16-17 and in the Examples at pages 41-56; Examples 2, 3 and 5 in particular. No new matter has been added. Applicants respectfully request consideration of the foregoing claims during substantive prosecution of the application.
